PANDUIT™ ST3MT Stainless Steel Cable Tie Installation Tool

PANDUIT introduces a state-of-the-art stainless steel cable tie installation tool. The PANDUIT ST3MT is a rugged, lightweight, easy to operate, plier type tool featuring a tapered nose, lever cut-off, and cable tie side entry. This tool works with all PAN-STEEL™ MLT Metal Locking Ties, MLTC Coated Ties, MLTDH Double Wrapped Ties, and WAVE-TY™ Superior Grip Ties.

No matter what the application, this revolutionary ST3MT tool speeds cable tie installation and lowers your installed cost.

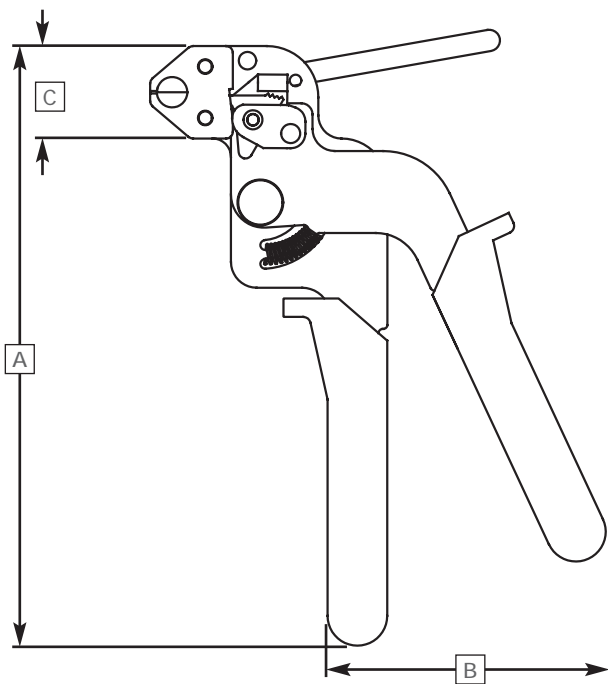

Key Features

Benefits

Tapered nose	Allows better access to the bundle in confined spaces, to help reduce installation time for lower installed cost
Lever cut-off	Allows for flush cut-off of ties, protecting bundle from abrasion and installer from injury
Side entry of cable tie	Allows for immediate positioning of cable ties, to ensure quick installation
Installs entire range of MLT ties	Only one tool is necessary to install all MLT products, thus reducing number of tools required in inventory
Manual tension control	Installed tension can be manually controlled, to specific applications as desired
Lightweight design	Lessens operator fatigue, which allows quicker installation
