

## Product Highlights

- Working temperature  
-54°C to +260°C
- Highly flexible

# Thermotubix® Industrial

Thermotubix Industrial is a thickwall, knitted fiberglass sleeving with an external coating of flame retardant silicone rubber. This product can be easily installed on cables and hoses.

Thermotubix provides effective protection against sustained high temperatures, flames and molten metal splashes that can seriously damage electrical cables and hydraulic, gas and lubricant supply lines.

This product is used in the steel and petrochemical industries to protect against internal and external hazards, especially to prevent hand touching from hot lines.

## Performance Data

Property	Test	Result
Working temperature		-54°C to +260°C

## Product Specifications

Description	Internal diameter (mm)	Standard packaging (m)
Thermotubix Industrial 8	8	15
Thermotubix Industrial 9.5	9.5	15
Thermotubix Industrial 12.7	12.7	15
Thermotubix Industrial 16	16	15
Thermotubix Industrial 19	19	15
Thermotubix Industrial 22	22	15
Thermotubix Industrial 25	25	15
Thermotubix Industrial 32	32	15
Thermotubix Industrial 38	38	15
Thermotubix Industrial 45	45	15
Thermotubix Industrial 51	51	15
Thermotubix Industrial 57	57	15
Thermotubix Industrial 64	64	15
Thermotubix Industrial 76	76	15
Thermotubix Industrial 89	89	15
Thermotubix Industrial 101	101	15

## Availability

Bentley-Harris® Thermotubix Industrial is available in sizes ranging from 8 mm to 101 mm. Standard colour is red-iron oxide.

Consult us for other sizes and colours.

Product is available with indelible ink marking according to customer specifications.

All numeric data show average or typical values.

## Part Numbering System

Example:	Description	Diameter	Colour	Quantity
	Thermotubix Industrial	19	12(red-iron)	15 m
