

Heat Tools for DIYers
Heat Guns

→ Summary

→ HL 2010 E electronic

→ HL 1610 E electronic

→ Accessories HL 2010 E / HL 1610 E

→ HL 1810 S

→ HL 1610 S

→ HL 1400 S Aktion

→ Accessories HL 1810 S / HL 1610 S

Hot-melt Glue Applicators

Polystyrene Cutter

Heat-shrink crimp connectors

Accessories for electronic heat guns only
Hot air system accessories

There are virtually no limits to the use of STEINEL heat guns. In many applications, efficient working and optimum results are only possible with appropriate accessories. This is why STEINEL offers an extensive range of attachment nozzles, auxiliary tools and expendable materials, all perfectly tailored in quality and application to these heat guns. For instance, all nozzles are made from stainless steel. As you can see at STEINEL there's a system in hot air too.

Nozzle for lighting barbecues
Item No. 071714
Lights charcoal quickly and safely without using chemicals

Wide-slit nozzle
Item No. 074715
For welding tarpaulin, groundsheets etc.
Can be fitted to a 14 mm reduction nozzle.

Sill nozzle
Item No. 071011
For welding tarpaulin, groundsheets etc.
Can be fitted to a 9 mm reduction nozzle.

Welding nozzle
Item No. 070915
For working with plastic welding rod up to 6 mm in dia.
Can be fitted to a 9 mm reduction nozzle.

Soldering reflector nozzle
Item No. 074616
For soldering and shrink-fitting soldering sleeves and heat shrinkable sleeves

Reduction nozzle 8 mm
Item No. 070818
Focused source of hot air for desoldering and welding PVC.

Reduction nozzle 14 mm
Item No. 070717
Focused source of hot air for desoldering and welding PVC.

Reduction nozzle 20 mm
Item No. 070818
Focused jet of heat, e.g. for edgebanding

Large reflector nozzle
Item No. 073015
For shaping and shrink-fitting large diameters

Window nozzle 75 mm
Item No. 070410
Deflects to prevent panes of glass etc from overheating.

Window nozzle 50 mm
Item No. 070311
Deflects to prevent overheating in narrow spots

Surface nozzle 75 mm
Item No. 070212
Spreads air over wider area for drying, paint stripping etc.

Surface nozzle 50 mm
Item No. 070113
Spreads air over smaller areas, e.g. for waxing skis

Reflector nozzle
Item No. 070518
For soldering pipes and fitting shrink-fit sleeves

Feed roller
Item No. 012311
For edgebands and welding PVC sheets

Paint scraper set
Item No. 010317
Complete kit for stripping paint, including replacement blade holder, replacement blades and paint scraper.

Plastic welding rod
Item No. 073213
For securely welding plasticised PVC

Plastic welding rod
Item No. 073312
For securely welding LDPE plastics

Plastic welding rod
Item No. 073114
For securely welding rigid PVC

Plastic welding rod
Item No. 071219
For securely welding HDPE plastics

Plastic welding rod
Item No. 073411
For securely
welding PP plastics

Plastic welding rod
Item No. 074210
For securely
welding ABS plastics

Shrink tubing I
Item No. 071318
For shrinking onto
cable terminals, breaks
or looms
1.6 – 4.8 mm dia.

Shrink tubing II
Item No. 071417
For shrinking onto
cable terminals, breaks
or looms
4.8 – 9.5 mm dia.

Shrink tubing III
Item No. 072766
For shrinking onto
cable terminals, breaks
or looms.
4.0 – 12.0 mm dia.

Shrink tubing kit
Item No. 075811
Complete kit for shrinking, including reflector nozzle,
shrink tubings I in diameters of 1.6 – 4.8 mm and
shrink tubings II in diameters of 4.8 – 9.5 mm
